

# We believe in **Sudbury**

It's more than likely you know a Re/Max Crown Real Estate Agent. There are over 80 of us working out of 4 different offices in New Sudbury, Chelmsford, Hanmer and Noelville. One out of every three homes bought or sold in this market is handled by a Re/Max Crown Real Estate Agent.

In addition, Re/Max Crown Agents are involved in this community. We coach sports teams, volunteer our time to feed the hungry, support great causes and help to raise money for various charities. Giving back to our community is part of our company's statement & culture.

All Re/Max Crown Agents support the Miracle Home Program which means we donate a portion of our commission from every house sold to The Hospital for Sick Children. Since 1991, Re/Max Crown Agents in Sudbury have donated more than \$100,000 to this excellent program that supports research, care, education, equipment, and all critical issues of children's health. Our support aids in higher survival rates, less pain and suffering for children and less time spent in the hospital.

The Re/Max Hot Air Balloon is one of the most widely recognized corporate symbols. You have probably seen our hot air balloon at special events in the Sudbury community. We host balloon rides for children with all donations going 100% directly to charity.

Since the Heart and Stroke Foundation's Annual Big Bike Ride Event was first established, we have participated every year & raised over \$25,000 for the cause. We also take part in the Walk for a Cure for Breast Cancer and raised over \$20,000 for our local Cancer Treatment Centre

Re/Max Crown Realty (1989) Inc. Brokerage started in 1989. In good economic times and bad, our office grew carefully and slowly from 17 agents, and has been involved with selling more than 20,000 homes over the past 23 years. Our Office ranks #4

in the country when it comes to selling the homes we list.

"We have maintained our market share since the mid-1990s," says Cathy Gregorchuk, the Re/Max Crown Realty's, Broker of Record. "We are currently ranked the # 76 agency for Top Sales per Office by Real Trends Canada," which is considered the leading source of analysis and information in the residential brokerage and housing industry.

All of the agents work full time and are serious about real estate." says Gregorchuk.

It is important that Re/Max Crown agents and staff enjoy what they do. We work continuously in sales training and we like to keep up with the latest technology that allows us to accommodate our clients' needs, even those with demanding schedules.

Sudbury is an attractive & affordable place to live. The housing market is very stable with prices on a slight upswing. The thriving economy is currently creating about 200 jobs a month, according to Statistics Canada. Mining and the mining service sector are very prosperous. The addition of the Northern Ontario School of Medicine and the buzz about the School of Architecture are creating optimism and fueling the demand for housing.

Thanks to our company's recognition & well deserved reputation, many people moving to the Sudbury area will make their first choice for all their real estate needs by calling our office, Re/Max Crown Realty (1989) Inc. Brokerage. When you work with one of our agents, you develop a relationship. Many of our clients are repeat customers and they tell their friends about us.

We are your neighbors. We don't just sell real estate. We are partners in the community.
